

EVM MOBILE

ENTERPRISE VISUAL MESSAGING

Never Log Into Voicemail Again!

VISUAL VOICEMAIL

Provides a scrolling preview of your waiting voicemail messages. Open selected messages, read the full speech-to-text transcription, play the audio if necessary, and delete from your voice mailbox with just a touch.

VOICEMAIL FORWARD

Forwards mobile voicemail to your business voicemail box, consolidating all your voice messages in email so you never again have to check for voicemail in two different places. Messages that are left at either number all appear in your email inbox.

GREETING CHANGER

When used with Mutare's EVM3 with giSTT speech to text, you can record or

change your Avaya Modular Messaging or Aura Messaging voicemail greetings on the fly, right from your smartphone, with just a tap. iPhone and Android users can activate EVM Mobile from a free app.

ABOUT EVM3

EVM3 with giSTT speech to text is a unified messaging solution that seamlessly delivers voicemail messages to email, IM, SMS and CRM without the need to install a desktop or mobile client.

Control message deletion and waiting light status right from email and play messages from any PC or smartphone.

ABOUT MUTARE

Through unified communication technology Mutare creates customized software that makes communication easy, secure and efficient, with solutions for speech to text transcription, smart notification, secure mass notification, contact centers and more.
