

Mutare Voice™ Spam Filter

Healthcare

Enterprise Voice Spam Defense Protects Healthcare Organizations and Patients

Voice spam, including robocalls, abusive callers, scam calls, and annoying sales calls, cause employee frustration, lost productivity and damage your bottom line. For hospitals, clinics and emergency response call centers, spam calls amount to a literal life-or-death challenge, one that increasingly threatens the safety and privacy of healthcare workers and patients.

The Mutare Voice Spam Filter feature guards your voice network by filtering incoming calls, allowing legitimate provider and patient calls through while blocking spam callers. It can be deployed as a stand-alone filtering system or as part of an overall call completion solution.

Features

- Enterprise specific whitelist and blacklist management
- Dynamic robocall filtering with caller ID spoof detection
- Simplified administration and rules management
- Advanced reporting and analytics for spam filter tuning

Benefits

- Prevents digital distraction that impacts patient care
- Protects against healthcare schemes and phishing attacks
- Integrates with existing voice technology

Don't know how voice spam impacts your organization? Ask about our *free* spam check!
