

Mutare Text™

Reach

Remind. Survey. Notify.

Manually calling patients from a contact center is expensive and time-consuming. Each contact can cost up to \$20 for something as routine as appointment reminders. Automating reminders with an interactive electronic solution is far more cost-effective and efficient.

That's where the Mutare Text Reach feature can make a difference. The Mutare Text platform helps organizations activate patient engagement with customizable workflows designed to empower effective care coordination.

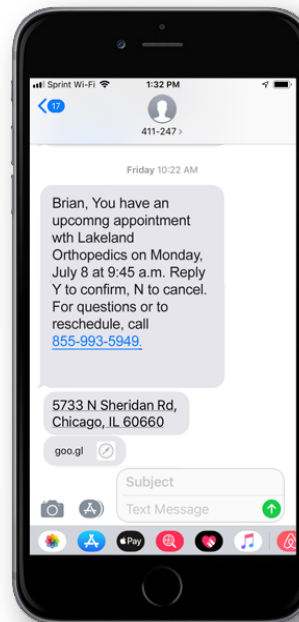

Care Providers Can Send:

- Appointment reminders and reduce no-show rates by 20% to 50%
- Medication reminders to keep patients compliant with drug therapy
- Surveys to automate outbound medical contact center functions
- Surgery center patient status notifications

Contact Methods

- Voice

- Email
- SMS/MMS
- Interactive Web Forms
- Interactive Smartphone Apps
