

Secure Enterprise Messaging App (Alert)

Solution Type	Channels	Audiences	Secure?	Direction
Enterprise Software + Mobile App	Text/SMS Voice Recording Video Images	Team Employees Groups	Yes	2-Way

A secure, two-way communication system designed for sharing information between team members, particularly in regulated environments dealing with critical or protected information (healthcare, financial etc.).

- Fully-encrypted two-way messaging
- Meets HIPAA standards
- Pager replacement
- Avoids regulatory exposure of SMS texting
- Full audit trail saved for reporting and compliance

Mutare Text™

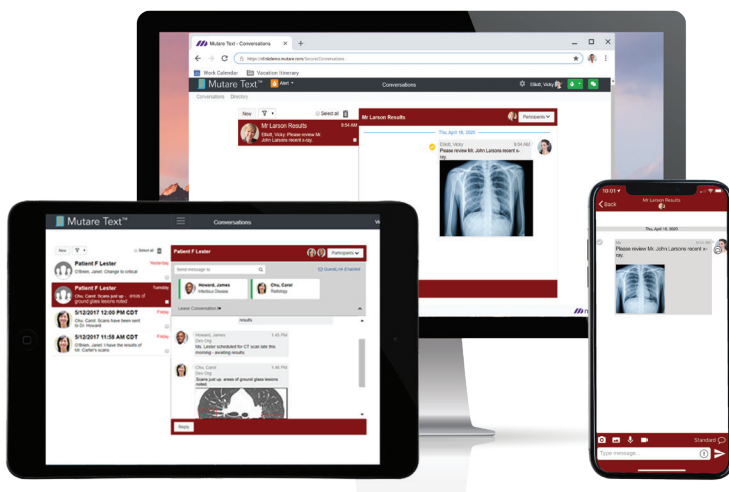

Get the word out to any channel, any audience, any direction, standard or secure.
