how people
connect.

Empower Your Enterprise Voicemail

USER FEATURES

A Modern User Experience (UI)

Message Retrieval on Any Device

...via Voicemail, Text, Email, Audio & More

Powerful Message Search

Simple Call Forwarding

Speech to Text (our specialty)

Message Waiting Indicator

Caller Context

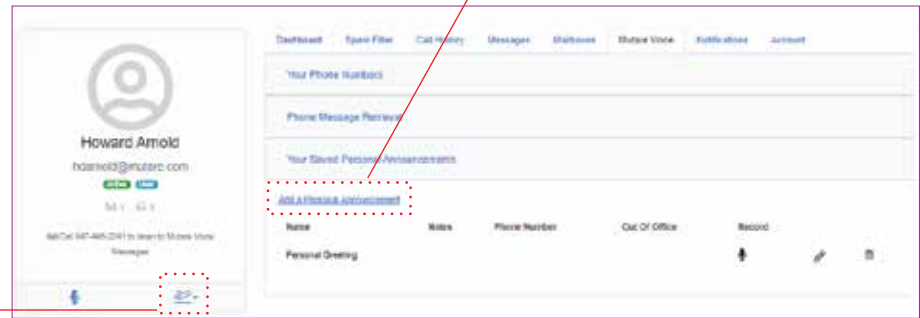

mutare.com/voicemail/

847.496.9000

Users will absolutely love this Voicemail solution.

We've highlighted a few of our game-changing User features, which are powerful, intuitive and will improve both response times and productivity.

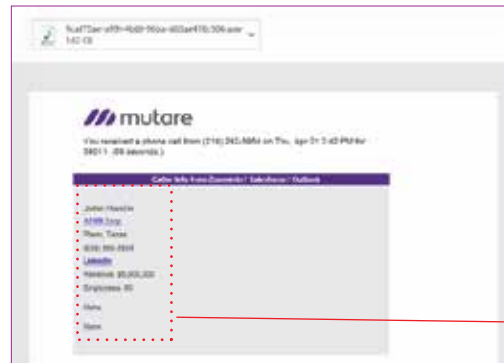

Modern UI Simple, with Powerful Control

Our dashboard displays your personal setup including one-click access to most used services: check your messages in a single view, manage your notification methods (including email, text message, IM and dial-in), configure settings for voice message management.

Quickly change your Out of Office settings; select a date range and apply an announcement

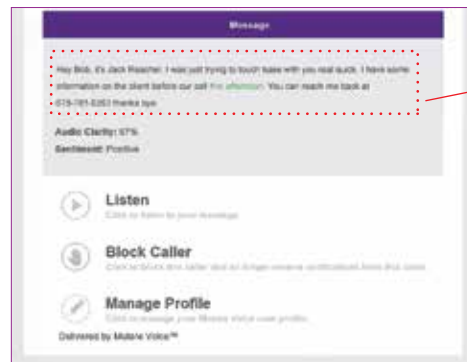

Caller Context Get Context with your Voicemails...That's Cool!

CRM, Outlook and ZoomInfo are quickly integrated with Mutare Voice to provide deeper and broader caller details. It's all about context; understanding who your callers are and how to prioritize them will help you improve your customer service and be more efficient.

May include full name, email address, company name, account numbers, historical information, etc.

Speech to Text That's Right, READ your Voicemail!

Speech to Text transcription supports more than 100 languages

Read your voicemail quickly and accurately converted to text to make your life easier. These text-based messages are easy to read, efficiently stored, and are fully searchable!

Message Waiting Indicator

Looking for a digital version of the blinky light on your desk phone?

We've got you covered!

Learn more about our Full Feature-Set. Check out our Website.

Administrators will breathe a sigh of relief with our Support & UI.

While most folks don't see voicemail as glamorous or beautiful, we do. But the beauty is in the power and simplicity of our solution, when so many other voicemail solutions are cumbersome, frustrating and time consuming.

Platform Agnostic
Cisco, Avaya, Mitel, Microsoft...

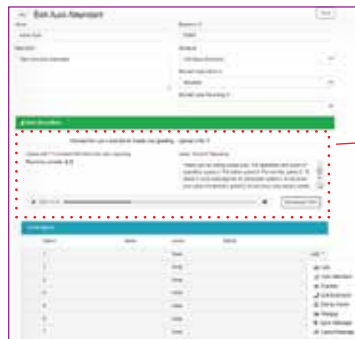

Out of the box, Mutare Voice is made to work with a vast number of collaboration platforms including Cisco, Avaya, Mitel, Microsoft and others. For the enterprise that still relies on traditional voicemail, it was designed and built to work simply and easily with just about any telephony, collaboration or unified messaging solution.

Simplified Call Routing

Our Auto Attendant is Powerful & Simple

The Mutare Voice flexible, features-rich Auto Attendant functionality can be applied to any designated line and admin control assigned to any user or users.

From your browser there are 3 simple options for to create your Greeting:

- 1) Record from browser
- 2) Upload an audio file
- 3) Create a recording with text-to-speech

You will get to know your dedicated Support Team Member on a first name basis.

Dedicated Customer Support

Amazing Humans are Here for You!

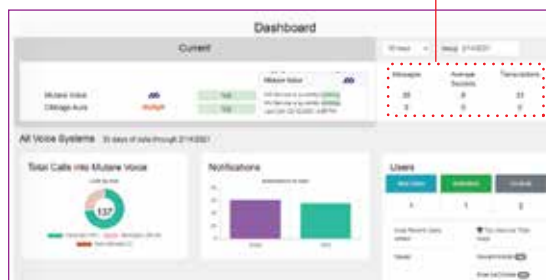

You will enjoy the convenience and reliability of having a dedicated support person during implementation and ongoing support. Our systems are widely recognized for being straightforward and quick to implement and can be deployed on premise or hosted in the cloud.

Reporting & Compliance

We Have you Covered Out-of-the-Box

Admin Dashboard that shows a snapshot of voice network and user activity over a selected period of time

Mutare Voice provides robust reporting capabilities. From the graphical dashboard, admins can see a general overview of their organization's voice system(s) and messaging activity.

Enterprise Voicemail

The Mutare Voice Platform enables you to enhance your current voicemail solution or replace it altogether!

“ I have seen a lot of implementations in the past and this one was handled exceedingly well and professionally. It was clear the Mutare engineers know their stuff.”

Michael Repella, Telecommunications Engineer, Philips Lifeline

“ Mutare makes sure we know we are important to them. I can't begin to explain the difference that has made for me while making Mutare Voice a reality in our company.”

Laurie Douglas, Systems Administrator, National Business Institute

“ The bottom line is this is a very good product supported by a great team.”

Jack Pennypacker, IT Network Administrator, Baxter Manufacturing

Modern Enterprise Voicemail
